

LARS ROBERT PEDERSEN Deputy Secretary General, BIMCO

Deputy Secretary General Lars Robert Pedersen is responsible for BIMCO's technical and operational activities involving all technical and nautical issues within the area of marine environment, ship safety and maritime security. Lars Robert is furthermore responsible BIMCO's activity related to regulatory developments relevant for shipping at international, regional and national levels.

In the past decade he has served on IMO expert groups on market-based measures and on the steering group for the IMO 2020 fuel oil availability study. Lars Robert has also chaired the Motorship Propulsion & Future Fuels Conference for the past 6 years.

He joined BIMCO in early 2010 after a long career at A.P. Moller-Maersk (APMM). For more than 25 years he was involved in regulatory affairs at IMO level, technical management of the Maersk fleet of container ships and prior to that as seagoing engineer officer. Lars Robert holds an unlimited Chief Engineers license.

BIMCO – the practical voice of shipping

Facilitating trade is at the very heart of our business, and since 1905, we've helped our members keep world trade moving. We make it our business to help our members with theirs.

BIMCO members cover over 60% of the global fleet and consist of local, global, small, and large companies. We are an organisation and global shipping community of around 2,000 members in more than 130 countries.

From our offices in Houston, London, Copenhagen, Athens, Singapore and Shanghai we aim to help build a resilient industry in a sustainable future whilst protecting world trade. We do this by finding practical solutions for our members to help them manage risk in a changing world.
