

ARON SØRENSEN

Head of Marine Environment, BIMCO

Aron Sørensen is head of the BIMCO Marine Environment Department. He joined BIMCO in 2008 and since 2010 has been head of the department. He is responsible for BIMCO's active involvement and negotiations on topics relating to the environment at a number of international organisations to help ensure a level of practicality in relevant conventions and regional/national requirements. Aron represents BIMCO at various conferences and holds regular webinars. His department assists BIMCO members by disseminating information and assessing the potential impact of environment regulations.

Aron is also responsible for the identification of future "hot topics" and in this connection has been the project leader on certain initiatives as well as the following industry publications:

Industry Standard for In-water Cleaning with Capture, The Guidelines on Cyber Security Onboard Ships and Industry Standard on Software Maintenance of Shipboard Equipment.

Aron started his career at sea as a deck officer before moving to the Danish Maritime Authority in 1992, where he began teaching future deck officers and ended being responsible for regulating the safety of navigation which included negotiations at the EU Council and the International Maritime Organization.

About BIMCO

BIMCO is the world's largest international shipping association, with around 1,900 members in more than 120 countries, representing 59% of the world's tonnage. BIMCO's global membership includes shipowners, operators, managers, brokers and agents. BIMCO is a non-profit organisation with NGO status and offices in Copenhagen, Singapore, Shanghai, Athens and London.
